

# World Class Sheet Extrusion Systems

## Professional Customer Services

PTI OFFERS AN ARRAY OF PROFESSIONAL SERVICES FOR BOTH PTI EQUIPMENT AND MOST OF OUR COMPETITORS' EQUIPMENT. OUR HIGHLY TRAINED TECHNICIANS PROVIDE ASSISTANCE FOR A VARIETY OF SITE SERVICE REQUESTS, INCLUDING:

### LASER ALIGNMENT

Laser bore alignment services assure prolonged machine life and avoidance of production difficulties associated with mis-aligned equipment. Laser alignments are typically within 0.001" to 0.003" and are performed by our professional, experienced service engineers.

### SHEET DIE CLEANING AND INSPECTION

For trouble-free operation, it is essential that your sheet die is thoroughly cleaned at regular intervals. Extreme care needs to be taken when cleaning your sheet die. PTi technicians are experienced in properly adjusting and cleaning sheet dies.

### PROCESS EVALUATION

Our experienced Process Specialists can assist you with process issues you may encounter. We can evaluate your equipment, troubleshoot, and provide recommendations which may improve the quality of your final product.

### FEED SCREW AND BARREL INSPECTION/REPLACEMENT

PTi can measure your feed screw and mic your barrel to check for wear and if necessary, PTi can quote you replacement feed screws and barrels.

### ROUTINE MAINTENANCE AND MACHINE REPAIR

Short on time or personnel? PTi technicians can arrive at your facility with the necessary parts to perform the recommended routine maintenance on your equipment.

### MACHINE AUDIT/INSPECTION

PTi technicians can inspect your equipment for proper operating conditions and provide you with a detailed report of their findings.

**Call our customer services representatives today to schedule your next extrusion service request. 630-585-5800**

Our service technicians will be dispatched quickly to your facility with local service support available in as little as 1 hour. Emergency services are also available evenings, weekends, holidays—call for more information.
